

## AP/ARMAFLEX INSULATION TAPE - Quick Completion For Hard-To-Reach Areas

- » High-quality AP/Armaflex insulation
- » Fast on difficult pipes & fittings
- » Controls condensation & heat loss
- » Clean, smooth appearance

### Description

AP/Armaflex Insulation Tape is made of high-quality AP/Armaflex Insulation, an elastomeric thermal insulation material. The self-adhering tape is supplied in convenient strip form, 2" (50mm) wide, 30' (9.1m) long and 1/8" (3mm) thick. No bands, wires, or additional adhesive needed. Available in standard cartons and tape dispensers. The expanded closed-cell structure of Armaflex makes it an efficient insulation. It is manufactured without the use of CFC's, HFC's or HCFC's. It is also formaldehyde free, low VOC's, fiber free, dust free and resists mold and mildew.

### Uses

AP/Armaflex Insulation Tape provides a fast, easy method of insulating pipes and fittings. It is used to retard heat gain and control condensation drip on domestic cold-water, chilled-water, and other cold piping and fittings and to reduce heat loss when applied to hot-water lines that will operate up to 180°F (82°C). AP/Armaflex Insulation Tape may be used in conjunction with AP/Armaflex Pipe and Sheet Insulation. Its greatest advantage, however, is the ease with which it can be used to insulate short lengths of pipe and fittings in congested or hard-to-reach areas.
